Executive Engineer

Technical Specifications for Supply , Providing & Fixing chain Link Fencing using MS pipe, MS Angle & GI wire Mesh Chain Link for Distribution Transformer Centre.

1.0 SCOPE :-

The specification covers supply (including fabrication), providing & fixing of Chain Link Fencing using MS pipe , MS Angle & GI wire Mesh chain Link for distribution Transformer centers \ RMUs as per design & drawing of UGVCL .

For the safety aspects, to cover Distribution Transformer \RMU, a chain link fencing is to be fabricated from MS pipe of square Hollow section (SHS), MS angle, MS flat & GI wire as per the design & drawing and to be provided \ fitted with vertical support posts of MS pipe of square Hollow section (SHS) in the ground using standard cement concrete mixture.

2.0 Design & Drawing :-

Chain Link Fencing is to be supply as per design & drawing attached with this specifications.

3.0 Quality \Standards of Material to be used :-

Basic material to be used for the fabrication of Chain Link Fencing which is to be supplied & provided is ms pipe of square Hollow section (SHS) , MS Angle, MS Flat & GI wire. Hence material should of standard quality of standard manufactures & name of manufactures is to be specified in bid.

4.0 Size & Dimension of Material to be used :-

- (i) For Vertical Post: Ms Pipe of square Hollow section (SHS) of 49.5 mm X 49.5 mm x 4.5 mm having wt of 5.95 kg\mtr .
- (ii) For main (outer) Frame:- MS pipe of Square Hollow section (SHS) of 32mm X 32mm X 3.2 mm having wt of 2.69 kg\mtr .
- (iii) For chain link (inner) Frame:- MS Angle of 25mm X 25mm X 3mm having wt of 1.6 kg\mtr .
- (iv) For chain link Mesh:- GI wire of 10 SWG with minimum 40 microns coating of zink & fabrication of mesh of 2" X 2" with approx wt 3kg\sq.mtr .
- (v) For Hinges: MS Flat of size suitable of MS pipe of 49.5 mm with thickness of 5 mm

Date:-

Place:-

5.0 Miscellaneous material like Hinges, Aldraft, Nut Bolt & other sundary material of standard quality.

6.0 Dimensions for fabrication of Chain link Fencing of standard size as per

drawing:-

- (i) **Main Vertical Post:-** Main post should be fabricated from MS pipe of square.
Hollow section(SHS) of 49.5 mm X 49.5 mm X 4.5 mm
Having wt of 5.95 kg\mtr minimum length of 2100 mm.
Normally Five posts are to be used for each fencing as mentioned in drawing .
- (ii) **Main (outer) Frame:-** Main (outer) Frame should be fabricated from MS pipeOf square hollow section(SHS) of 32 mm X 32 mm X3.2mm as per drawing .
Size Front :- Height : 1500 mm
Width : 1650 mm
Rear :- Height : 1500 mm
Width : 1590 mm
Both Side :- Height : 1500 mm
Width : 1650 mm
- (iii) **Chain Link(inner) Frame:-** Chain Link(inner) Frame should be fabricated from MS Angle of 25 mm X 25mm X 3mm as per drawing
Size Front :- Height : 1336 mm
Width : 610 mm
Rear :- Height : 1336 mm
Width : 575 mm
Both Side :- Height : 1336 mm
Width : 1400 mm
- (iv) As per drawing, standard size of chain link fencing will be of 10.88 meter running length (with height of 1.5 meter) & rates are to be quoted accordingly. However, actual size will be very as per site situation & quantity will be considered accordingly.
- (v) Labor charges will be fixed per job of fencing .

7.0 Installation i.e. fitting of Chain link Fencing at site:

Supplier has to fabricate the all the sections of complete chain link fencing as per drawing, dimension specified as above as well as per instructions of Engineer. In charge of concern UGVCL subdivision as per site requirement and installation.

Prior to installation\fixing at site, all the MS parts should be applied two coats of red oxide.

Main vertical posts should be grouted\fixed in the ground in such a way that fencing frame should be remain 150 mm above from ground level. Minimum 450 mm length of vertical posts should remain in ground & it should be fixed up by foundation of standard CC mixture of ratio 1:3:6 for the area of 300 mmX300 mm&height of 475mm ,After installation \fixing at site, two coats of standard paints should be applied as per instruction of engineer in charge of subdivision under Vijapur Division.

8.0 General condition for supply and providing chain link Fencing

1. Zink coating of chain link mesh should not be less than 40 microns. For the same, supplier has to produce manufacture's certificate
2. Space between vertical post (49.5 X49.5 X4.5) & Main frame (32 x32 X3.2) should not be more than 60 mm.
3. Space between main frame (32 X32X3.2) & MS Angle frame should not be more than 50 mm.
4. Fixing of vertical post should be provided with foundation of standard CC mixture of ratio 1:3:6 for the area of 300mm X 300mm & height of 475 mm with sufficient curing.
5. Fixing of fencing case should be such that over all height at all place should not be less than 1650 mm from ground. Fencing panel height should not be less than 1500 mm.
6. Chain link mesh is to be fixed in the frame of 25 x 25x 3 mm MS Angle frame with good quality of welding. Fitting of this frame with MS pipe (32 X32X3.2) should be done with welding using MS angle.
7. All the fabrication work should be done with good quality of welded & it should be free from sharp edges, concerns & unevenness of surface. It should also with good finishing & decent look up to the satisfaction of Engineer in charge.
8. The drawing & dimension (except height) are for standard & normal locations. However, it may be very as per site situation. Hence supplier has to approach concern subdivision under Vijapur Division, joint visit for each location & record the dimensions according to site situation and accordingly has to fabricate, supply & fixing the chain link fencing as per instruction of engineer In charge of concern subdivision under Vijapur Division.

9. The drawing & dimension (except height) are for standard & normal locations. However, it may be very as per site situation. Hence supplier has to approach concern subdivision under Vijapur Division, joint visit for each location & record the dimensions according to site situation and accordingly has to fabricate, supply & fixing the chain link fencing as per instruction of engineer in charge of concern subdivision under Vijapur Division.
10. The drawing shall not absolve the supplier from his liability for insure appropriate dimensions & to supply & providing accordingly as per the site situation & instruction of Engineer In charge.
11. MS aldraf should be provided with locking arrangement on front side as shown in drawing .
12. Fitting of complete chain link fencing panel with vertical post should be done with appropriate MS flat with thickness of 5 mm and Nut Bolt 2" X ¾ " size as per drawing. It should be in such that both side & rear side, with tight fitting by nut-bolts where as for front side, it should be slightly loose fitted so that it can work as hinges.
13. Quality of material: As the major material is a steel item, the material like MS pipe, MS Angle, MS Flat & GI wire must be as per relevant IS & bidder has to confirm regarding the same. The audit inspection is to be carried out as per terms of the tender.
14. Drawing :- The typical layout drawing applicable for the tender invited is annexed.
15. The list of location where Transformer Fencing to be provided By concern Engineer of subdivision under Vijapur Division.
16. The successful contractor has to install sample cage first and it should be inspected by SDO & DE Tech. Then after you have to install other cage as per sample cage.
17. The entire job will be prepared with proper care, welding and fine finish to give decent aesthetic look, to the satisfaction of the E-I-C.
18. Contractor has to provide name plate on the front side of the chain link cage with the detail of Name of Contractor, work order no & date and date of installation of cage.
19. Guarantee of chain link cage should be up to 18 month from the date of installation.
20. Major material is of steel items if found inferior a lot of material will be rejected & if not possible replace UGVCL will deduct 30% amount of the end cost price.
21. In case of any discrepancy, the E-I-C will provide the guide lines and the contractor will have to follow the same. The discretion of the authority issuing the tender and above will be binding to the contractor.
